Publication Title:

- I transfer the non-exclusive right to the Staats- und Universitätsbibliothek (SuUB) Bremen to store the transmitted document(s) and the data (metadata) describing the document supplied by me permanently in electronic format, to convert them into other data formats if necessary and to publish them publicly in data networks according to the principle of worldwide open access, and I acknowledge the "Terms of Contract for Electronic Publications on the Document Server of the Staats- und Universitätsbibliothek Bremen" (Version 02-2020). I am free to dispose of the work in any other way as long as this does not restrict the rights granted in this declaration for SuUB Bremen. I am aware that the library's right to publish the dissertation can not be restricted by a later additional publication of the dissertation. If I have granted a CC license for the document, it cannot be changed retroactively at a later date.
- I hereby declare that the files of a dissertation submitted to SuUB Bremen agree with the examination copy of the dissertation approved by the Promotions Committee. If the electronically published thesis contains personal data (CV, if applicable), the right is granted to store the personal data (CV, if applicable) contained in the thesis and in the metadata and to make them publicly accessible. It is recommended to publish the document online without a CV.
Subsequent updates of the electronic version are only possible with the express written approval of the responsible PhD Committee. The withdrawal of the publication of an already published electronic dissertation is only possible on the part of the author with reference to § 42 UrhG (see also "Terms of Contract for Electronic Publications on the Document Server of the State and University Library Bremen" 7.)
- SuUB Bremen is entitled to pass on the document including the metadata to other libraries, archives, open access portals under the same conditions, e.g. to the German National Library, Frankfurt.
- I assure that no rights of third parties are violated by the publication of this publication. Any copyright and licensing issues in connection with the electronic distribution of the dissertation have been clarified by me - in particular in connection with the registration of patents, trademarks, utility models and the like rights of third parties to text or images supplied by me actually or possibly oppose publication, I shall inform the library immediately and about all legally relevant facts known or recognisable to me. I exempt SuUB Bremen from all claims that third parties may assert against it on the basis of their rights to the publication.
- I am informed that SuUB Bremen does not accept any liability for errors occurring for technical reasons. I am informed that SuUB Bremen assumes no liability or warranty if the work is unlawfully altered by a third party after download and/or published elsewhere without my consent.
