

## Declaration of consent

Stand: 02-2020

### for electronic publishing and the transfer of distribution rights of exam theses such as Master or Bachelor

Author:

Publication Title:

- I transfer the non-exclusive right to the Staats- und Universitätsbibliothek (SuUB) Bremen to permanently electronically store the transmitted document(s) as well as the data (metadata) describing the document supplied by me, to convert them into other data formats if necessary and to publish them publicly in data networks according to the principle of worldwide free access "Open Access" and I acknowledge the "Terms and Conditions for Electronic Publications on the Document Server of the Staats- und Universitätsbibliothek Bremen" (Version 02-2020).  
I am free to dispose of the work in any other way as long as this does not restrict the rights granted in this declaration for SuUB Bremen. I am aware that the library's right of publication cannot be restricted by an additional publication of the document later. If I have granted a CC-license for the document, it cannot be changed retroactively later. If the electronically published work contains personal data (CV, if applicable), the right is granted to store the personal data contained in the work and in the metadata (CV, if applicable) and to make them publicly accessible. We recommend to publish the document online without a CV. SuUB Bremen is entitled to pass on the document including the metadata to other libraries, archives, open access portals under the same conditions, e.g. to the German National Library, Frankfurt.. The withdrawal of the publication of an already published electronic thesis by the author is only possible with reference to § 42 UrhG (Copyright Act) (see also "Terms of Contract for Electronic Publications on the Document Server of the State and University Library Bremen").
- The publication of the work is strongly recommended by my supervisor and - if applicable - by a company / institution that is also involved. I assure that no rights of third parties are violated by the publication of this publication. Any copyright and licensing issues have been clarified by me in connection with the electronic distribution of the thesis - in particular in connection with the registration of patents, trademarks, utility models, etc.. Should the rights of third parties to text or images supplied by me conflict with the publication, I shall inform the library of this and of all legally relevant facts known or recognisable to me without delay. I indemnify SuUB Bremen from all claims that third parties may assert against it on the basis of their rights to the publication. The author may be liable for the content of the document.
- I am informed that SuUB Bremen assumes no responsibility for errors occurring for technical reasons and assumes no liability if a third party unlawfully alters the work after download and/or publishes it elsewhere without my consent.

#### Declaration of the supervisors of the exam thesis

It is agreed that the above-mentioned thesis may be included in the SuUB's repository in electronic form, stored and made publicly accessible in data networks. I explicitly recommend the publication of the document.
